One Stop Shop. the Home of Intelligent Automation

Streamline the Chain of Responsibility

- Do away with multiple vendors and service technicians.
- Drive cost and machine efficiency with a single source supplier of 'whole of life,' 'whole of factory' automation solutions.

VS.

Fully Integrated, Single Source Supplier

Whether you are considering integrating automation within an existing facility or greenfields site; Single line, or fully automated, turnkey solution, we can support the vision and see this through to practical implementation, with a focus on total lifecycle management.

Our nationwide team of technicians provide ongoing 24/7 after-market support including preventative maintenance & breakdown services, training, and advice on optimisation and upgrading.

Exclusive Partnerships

Our exclusive partnerships with Yaskawa-Motoman and MAX AGV means that you can take advantage of the benefit of technological leadership and the synergies of single-source equipment supply and integration, as well as enjoying consistency in aftermarket support.

We've found the best in robotic and AGV solutions, so that you don't have to!
