

PackMaster Series

Mixed Case Palletiser

Complete automated solution for efficient palletising of mixed products

PackMaster is a fully automatic mixed palletising solution for efficient palletising of mixed products on roll containers and multiple size pallets

PackMaster has been developed in collaboration with Yaskawa Nordic AB from Sweden and offers an innovative solution to mixed pallet stacking and wrapping.

The PackMaster can easily be upgraded if required from single to dual robots to effectively double the stacking rate.

Watch the system in action.

PACKMASTER SINGLE

- PACKMASTER base with integrated foil ring stretch wrap unit
- Optional Stack Assist Tool (SAT)
- Full controls and HMI
- Single Motoman GP180 Robot with MCS-2 Gripper (2 pickup)
